

Tory Torch Newsletter Urges Reunification With England

RICHMOND, Va. (AP)—A frivolous committee for Reunion with England is calling on Tories in this country to correct a "230-year-old mistake" — the American Revolution.

Pushing not too seriously for reunification with Mother England, the committee issued Monday the first edition of The Tory Torch, a bimonthly newsletter, proclaiming "God Save the Queen" and demanding equal time on national television networks.

Stating flatly the American Revolution was "merely a power play by greedy Yankee

merchants and debt-ridden Southern planters," the publication said it would ask the Federal Communications Commission to compel the networks to give the committee equal time to combat bicentennial propaganda.

Because of CBS' "Bicentennial Minutes," the newsletter said that network "owes us a good 200 minutes already."

The Torch also cries out to closet Tories to "come out of the closet waving your banner of loyalty to Mother England in the midst of the rebels' blustering bicentennial...Prick the

flattulent bicentennial balloons! Plan your own anti-bicentennial celebrations...Confront the rebels!"

The newsletter is edited by John N. Ambrose and David A. Gambill, both of Richmond, who founded the committee.

The publication is directed at "the finest Loyalist households in the American colonies."

As a preliminary step toward reunification it urged Tories to "all 50 colonies" to collect signatures on petitions "begging forgiveness from Queen Elizabeth."

The Torch said the petitions will be presented to the queen "during her visit to the colonies next year" in commemoration of the bicentennial.

Among the hints the Torch carries in efforts to help Tories is the suggestion that Tories use public transportation "only with the utmost caution."

The newsletter maintained, "Airplanes are particularly dangerous. Virginia's Royal Governor, Lord Dunmore, made it a point never to fly."

The six-page Torch said the Committee for Reunification with England plans in the coming months to push for a transatlantic bridge that will provide "a physical link between the American colonies and Great Britain."

Ben Franklin said, "Nothing is humbler than ambition when it is about to climb."
